

A connection leaving me because I told that I have no special interest in Japanese and that they could give reason for anger to important good sides by attacking and damaging them in the past, killing a lot of people being aggressor war, but she had much interest for the Japanese, learning their language.

Before that, she was OK, but telling about strange illness.

Dani Michalski

I explained so many times, but can not explain to all, therefore to change the situation of rightlessness and pain and to compensate are really necessary. Facts that I am a real victime, I had to suffer pain and humiliation almost every day of my life up to many thousand times per day and on many days very extreme. I was/am standing only for the internationally unblamable good things. I was/am no political side and between races and nations. I had to suffer very much for that. It is unbearable to me when people still give me humiliation and calumnation or worse even damage me or confuse me with sides or interests, when just fighting and wanting to damage those. I can not be perfect but extremely unfair to ask for that. Understand, that nobody can humiliate himself more, than when attacking or blaming me. This when considering the facts and known rules of wrong or right! But because I am really this victime, I can not be blamable when I blame or defend, even when I can not be perfect in how doing that. The big difference between me and all the others around or any members of any groups should be known and it consists in my singular position of being a victim and alone in life but attacked most and continuous from those sides and people guessed maybe to be close to me, the majority in Germany. I can never be perfect or complete when explaining, but I did since many years. It was time to compensate now, and for nothing else anymore!

It didn't change at all: I was attacked avery day of my life and when I go out to search desperate for a friend, a girl friend or love or a wife, instead to find a chance or a hope there are forced national and political fights which I have nothing to do with being really NO SIDE but A VICTIM! People who can't stop to hit a victim hit every day of it's life, are: tell it yourself!

Wieso sind die Ratschläge von 1-2-3 recht immer so objektiv und informativ, aber teure Rechtsanwälte scheinen nichts zu wissen und die Gegenseite auch dann zu vertreten wenn es augenscheinlich war dass ich der geschädigte bin`? Was verändert RA allgemein von der Beratung zum Gericht?

17/06/13: My privacy is hurt by an observation which is always heavy burden and pain to me, even when they don't attack. Most people don't have this burden, it can not be done so continuous and detailed except to very few. When I am not more perfect than God some (because there are several different interests doing this or parts of it) start to blame and humiliate. Means humiliation always. But most others get a lot of help to get better than naturally and I am a lot damaged on my body. But this is just the 1000th part of daily burdens, which others don't have to bear but I have. I am only a simple man standing between races and nations and only for internationally not blameable things, apolitical. Also on Friday, June 7th, I did not do anything to anyone and did not hurt anybody and anybodies rights. The observers did attack and humiliate. But hundreds of people did attack and humiliate me too,

since then. All those not trying to compensate same time, are really criminals. Remember that many real extremist fascists, stating that fascism would have won and be the brain control today, accused me that I should have felt attacked and humiliated when war films and humiliations against fascism were shown and told at that time of my childhood. I did call ostentatious the humiliations right and to like the war films. I was attacked already then so harsh, that I did not like such films anymore, because blamed and humiliated from fascists teaching me, that I would own them to be against such positions and that they would have in their hands my destiny and healthiness and they will damage me, what happened! They promised me that I will feel how it is when one is humiliated and when the TV attacks. Whatever I watch at TV in Germany, the TV is manipulated and starts to personally blame and humiliate me with many different things. Consider thus, that the humiliations which I had to endure when buying in EDEKA in Gärtringen or others positions here around last week, are not only a crime before humanness, justice and human rights, but also real FASCISM! All participating were contributing to real fascism, even when they certainly do not want to accept their guiltiness!

There are these 600 000 crimes never punished which I should be as a victim compensated for (additionally much more than 600 000 humiliations). Referring to all rules and internationally accepted interests there is nothing I can be blamed for, except some words which were all a result of even robot like brain control and torture with real body pains done from distance in my head. My birth can not be a guiltiness so bad that even the 100 000 part of damages and pains could have been excusable to do to me, my parents never attacked or blamed, grand parents presenting themselves as victims.

I don't know why I was chosen for being attacked continuous for all reasons in the world which would all not have allowed it, tantalised, humiliated, damaged and tortured almost every day of my life and in serious or extreme way on many days. As a little child I suppose for to break my will and to use me in slavery way. Almost every day almost everywhere where I was, move(ed) people in special way when I pass. For years this was extreme humiliations and real attacks, recently it got neutral or pleasant with some humiliations and attacks only. Who can move so many people has to be able to compensate and pay bills! I don't know who my parents and family are that I got such attention, but they were all never blamed, got many helps to be better than naturally and were admired and respected. They did contribute to the attacks against me from youngest childhood, calling me the bad one when a tall German speaker woman giving the means was asking for that and forever since then. I understood with 4 years already in very mature way the guiltiness of both World Wars on German and Austrian side and blamed that guiltiness. I was born blond and with slit eyes and not related to any important people thus, but being between nations and races. I can forgive the attacks, humiliations and damages done to me as a 5 years old child, when it was played, these were not only Germans, doing that. But the damages, tortures and destructions of my life are a sum which is "infinite", nothing to do with that time. I am thus blaming the guiltiness of the past German and Austrian World War kings and I am not related to such guiltiness. I respect the still existing kingdoms, especially Great Britain and admire the royals. But I am just a simple men and a victim in life. I am sure Great Britain would or does see it the same way. I do not want to be hurt and tantalised with the theme of kings again. But the brain and other control systems in society should not be able to put me in inferior position referring to the most people and to control me to appear as a fool and humiliated thus, even when not humiliated by attacks anymore. For many elsewhere and often explained reasons,

one owns me bills and compensation to pay. But still I suffer every day and real reparable damages are not yet repaired. I can not live this way and I did bear much too much already.

I am provoked to be against the British side and when I still have good positions referring to them, like always, I am forced to appear with properties of older people and am called an old man and also one humiliates me in extreme ways. One poses me by the brain control and people moving and talking with it in positions to humiliate myself extremely, when not attacking the British side. They are so smart in doing that. But I resist and endure humiliation. Still I am not the British side and I am standing only for the very best things, internationally not blameable, standing for the rights of simple people and I am not responsible for the national, political, religious and even social fights of this world, I am not guilty referring to any at least accepted interest and a victim of such fights. I am also sustaining the democracy, like always.

Every day I am attacked the whole day long and I bear pains and willingly done damages from the past. The sum of pains gets immense. Repeatedly I was then meeting persons which I did not to have a trouble with, being provoked around that meeting. I am angry that I can not be perfect then but believe it is not the little provocations, it is just too much what I have to bear every day and it was even more anyway on those days. Also today I did meet a kind guy, and I have respect and good positions referring to his side, but I did not behave as good as I wanted referring to him. I could not explain how big the sum of crimes hitting in my life really is and how good positions I do really have. But I have exaggerated with some unimportant matters and did blame before realising who he might represent. I have the very best positions referring to that side. Situations like this occurred repeatedly, created misunderstandings and I was a victim in those situations. But victim I was not for this side I met, but for others did control and produce pain and damage me the whole day long before and my whole past life and maybe also in that moment, never clear. The little provocations and trouble maybe bound to those would not have been a problem, but the problem was that I from being expressively polite and friendly and explaining real things got somebody exaggerating unimportant and over reacting but not able to explain my positions good enough.

Every day of my life I am still attacked the whole day long by automatic b.c. systems, automatic acoustical influences and several people. I am still kept willingly in pains from the willingly done and willingly not cured jaw and teeth, means head problem and by chemical attacks. I get desperate and stressed like a real victim attacked again is. Fascists and Germans having a fascist mentality promised me pain and humiliation. Then, with a primitive attack in the disco, I blamed the attacker to be a fascist and a seemingly French guy did contradict. I explained that I was searching for years in France for help against the torture in my life and they did promise und start to help, but later the politics changed and now I don't know what happens. But I have formulated wrong because being tired and my French is not good enough, telling something like the "French did not pay yet compensation". I am sorry for that but I could not tell it to this French guy, because he left and a French girl was coming and clinking to me and we danced very close. No girl, nobody from all there was kind to me, only here! Then some German guy came aggressively to me, to blame me that she would be too old for me! Also others were blaming me, telling now the French were the fascists, isn't it? NO I do not call the French fascists, but those calling those fascists yesterday and those who attack and humiliate me! But this is more than some people the state and automatic systems. Encore moi je veux excuser pour j'ai dis quelque chose mal, le françaises ne faut pas payer rien a moi, j'ai seulement vouloir dire que quelques intéresses, plusieurs Allemands et le état allemande faut payer dédommage, mais ils ne payaient pas! Mais j'ai attendu que en Français me veut aider et ne pas défendre un criminel qui me attaque. Mois, j'ai une position de amitié a rapport de

France et Françaises, je appris le français pas du tout facile pour moi, pour éprouver ça, mais quelques Allemands, qui me attaquent et font beaucoup de mal avec beaucoup d'autres choses aussi, me forcent en conflits avec Françaises. Quand il faut payer beaucoup plus que toutes les valeurs qui existent, pour très bonnes raisons, mais je suis attaqué, je ne peux pas accepter le reproche à mon adresse. Aussi j'étais attaqué beaucoup de fois pour avoir acheté une voiture Peugeot, les Allemands me veulent obliger d'acheter VW. Deux semaines en retard dans un tunnel je passe chaque jour, c'était quelque chose sur la rue qui a cassé toute la roue et non seulement éventré les pneus.

Encore excuse à l'adresse d'un très aimable français, parce que j'ai mal formulé pour les limites de langue que j'ai dites, je suis une vraie victime, mais lui et les Français ne me doivent rien.

To avoid such situations it has to stop that I am attacked every day of my life the whole day long, but helped and compensated instead. Those attackers are on a level of murderers, inverting justice too extreme. But I can still forgive.....

19.06.2013:

I am still attacked in my own habitation.

I am still attacked always when going out. Using the brain control and predicting what I will do. A woman standing near the cashier screaming every piece I buy, then one can see this in my basket. Also it is serious head ache and blocking of my own thinking ability, when they do this. I can not defend!

Whatever side they tell to be, considering all facts in my life, all accepted rules of wrong and right and all accepted interests, every good human does want that I am compensated and knows that I am an innocent victim. To still attack, is something on level of murderer and the mentality of those can really be compared to that of the worst fascists.

20.06.2013

Even when good humans in this world and all accepted interest sides want to help me to be compensated, considering their official positions, I am still continuously attacked the whole day long with many methods and ways. But it is really direct extreme fascism hitting in my life! (I claim from the international community that they have to stop that, punish the criminals to learn that that was not allowed and to take care that I am compensated! I blame them to contribute on a crime of more than 6 000 000 crimes before law, daily little torture and damages, daily willingly done pain and a lot of humiliation for more than 40 years! Nothing could ever be brought against me, telling the truth! Only for crimes committed on my life personally I want to be compensated. Still read for clearer <http://help.innohum.com>

21.06.2013:

Yesterday before sleeping very old neighbours made noise and my soul found bound to them, I felt damaged, don't know how it is done, suddenly I felt older and sick. In the morning these old neighbours told Norbert should get a woman and then but we are Norbert. Suddenly I felt very tired and had no energy for standing up and I felt desperate and wanting to die. Half an hour later I could not see anymore, pains appeared in my body, I felt empty and life hopeless. My whole soul and thinking was seemingly happening outside of me at those neighbours. I could not find myself inside me anymore. I could not start my day. I took all my power and left place. Then things got better and also an hour later I could see again. Pains got lower again.

Voice from some neighbours: you are the hate! After 5 minutes group of young woman on the street appears. First they tell with self confident of an adult accusing a bad child: Norbert, we hate you. After 1 minute they almost scream clearly: Don't you hear you are the hate? The facts in my life tell that everybody participates on the worst form of actual fascism, bound most of all to that fascism of the past, hitting in my life, even when they mean to be another side. Every good human and every acceptable side want that I am compensated and stand against pains in my life. Still many hit in my life and they play also to be important interest sides, Germans playing to be others. Arguments, proofs are more than sufficient that everybody is an extreme criminal standing against my life and dignity and everybody from an acceptable or better side wants to help me. It is a humiliation to all the simple people, to all winner sides against fascism and to all those moderate socialists which, to allow all those damages, calumniations and pains done to me and to tell that some of those could have wanted that. Considering the intention and mentality, they would be then the same with fascism.

They damaged an innocent and they humiliated the damaged more than 100 thousands of times for being damaged, as that would be guiltiness. I have never done anything in my life and never standing for anything what could officially be blamed. My parents and Grand Parents were never attacked and damaged and not blamed. More guiltiness than my birth I could not have. But I was the only one accusing fascism as a child among German speakers, in Romania hated very much for that. Still, for the damages on my body done in Romanian hospital they had to pay for! A power controlling many and a lot of people could not stop to hit the victim!

A power controlling many and a lot of people could not stop to hit the victim. There are huge bills and compensation to pay, more than possible, but a little part of possible would satisfy me already. But nobody was there to really force them to stop and to really pay when they would have to pay! Still some really good people do help, but it couldn't change anything yet.

People talk about me in a way like they would be God and I have to feel inferior. When many unknown people have such positions as it happens, a life is not possible. But additionally many humiliations happen with brain control only possible or also direct. When I answer to these people, they tell me that I have to die with damages pains until (which I always had and have), because those fighting will die in society. That means, I have to die with pains until or I have to die with pains until then. Since the age of 3 all my options were exactly this. There can't be a reason and nobody ever brought any. But they want to attack me.

All those bound most to fascism of the past and all those I have seen to still stand for fascism today are privileged in the brain control system and never attacked or humiliated. But they attack me and others sometimes. Nobody is attacked all the time like me here in Germany and nobody is humiliated not even in comparable way like me, but mostly not at all. My parents and grand – parents were never blamed or called guilty; they had huge advantages in my lifetime and more than that guiltiness since birth I could not have. Why doesn't it stop that they hit a victim? How long to how many I should complain, doing it since 20 years?

22.06.2013

When waking up, immediately attacks start: binding to several very old people in my mind and humiliation by words from the surrounding. They have no political position anymore, still people attacking make with high effort clear that they are the "we" meaning all people in the

world from which I am excluded, being the other one, never with any "we". I live isolated but continuous severely attacked and humiliated, different than all the others. But did I reach or deserve that for something? Certainly not! One owns me that I have friends and find a life!

I never gave a reason and my family nobody had difficulties from, but they ordered when I was 4 years old, that I would be the "enemy of all the people". I was scared and angry, but attacked from all and only German speakers around me until today. Germans in Germany are those humiliating me continuous. But the game is not done by my parents, they got valuable means to get better then naturally and were with others together when I could hear them deciding, that I will have to be the bad one, having slit eyes suited best, the other will easily follow and all the others would be too good for that.

I was a victim of pro Fascist German speakers being a child and know that a part of the brain control system is still fascism, even when they have officially lost, but does that system officially exist? I will always fight fascism and thus fascist mentality on other people. But I want to be compensated for the crimes committed on me during my lifetime. Please read <http://help.innohum.com> Not the brain control system as is, but the fascist part of it and that they contradicted extremely my life, making it painful and impossible all the past time, I complain about. Ask compensation.

Every 2 minutes a hitting comes over my body, 24 hours a day. I am attacked from people around me no matter if neighbours or people in the store or on the street. I am attacked much more from the brain control system in my head synchronising mostly with acoustical attacks, with gas in my own habituation damaging me on body and soul but not extreme, still daily.

25.06.2013: Antwort auf Badoo, wollte ich mir merken: OK, genauso könnte ich sagen, du bist zu jung! Ich hatte mich ja auch gefragt, was das soll! Aber man kann durch eine Freundschaft zu einem gut gesinnten Menschen doch gegenseitig Vorteile haben. Ich bin so ein gut gesinnter und gebildeter Mensch. Trotzdem, ich kann gut verstehen, dass du ab 40 nicht gerade deine freunde suchst. Ein Tip: Kann man aber auch einfach so sagen: nein, sorry, keine Lust. AAALLTT glaubst du dass ich nicht genug mit der Zeit schimpfe? Musst du mich daran erinnern?

2.07: posted

I point here that the extreme discrimination, attacks, unavoidable created pains, very many little and many serious damages, calumny and humiliation is a sum which can never be excusable for any reason in this world and the only guiltiness which I could possibly have is the hereditary guiltiness, which would not charge me really. I know that most Germans do live self confident and with good chances, but never experienced any of these troubles. Still today in Germany authorities and important Germans have the position that I am so German, that all these crimes were really allowed and not guiltiness, but it would be necessary to continue to humiliate me. I heard in this week in phone calls and from people on street and neighbours: I would be too old, at least 50 times. Many responsible (at shopping, on street, searching for projects) treat me in a humiliating way like nobody I could see ever treated in Germany. They start from first word to talk like I would be a fool. Many people on the street having huge gifts to get better than naturally on their body tell me, you were just a fool in your childhood understanding everything wrong but they are just love. I was as a child on the position that I was the only one from all adults and children present to know that fascism would have lost and the others told that the fascist leader party would be the side of people,

also in Romania in Socialism. I was contradicting and accusing fascism, but was alone with this position, no joke. Anyway, what could I have understood wrong when it was surely impossible to me to avoid to get damaged and tortured? What was to understand with 3, 5, 8 and 12 years, to avoid damages on body and torture? I was standing with all my thinking and will against fascism consequently since the age of 3! I am still attacked in many ways and all my past life was to be attacked continuous without that I ever did anything.

3.07.2013:

As told, being made brain controllable in Romania exclusively the German speakers took the profit, but could humiliate and force me many times with. I met a Romanian in Germany at work, we got kind of friends and I was talking Romanian to him. I did this on some day so well, that Germans around me told, oh, he is Romanian! They looked at that other Romanian, like he would be dead if a look could kill. Then some German speakers from Romania and some Germans around did call him to talk with him. I got only that they told, "He was the bad one and now he should be Romanian? We can not do then ...?" More I could not hear. In the past in Romania and Germany it was ordered that I have to be the bad one but I did not do or tell anything to get that bad one, but I suffered more than 600 000 crimes for that! Then this guy was not looking friendly anymore, staying at distance. The brain control forced me to follow to a control, so that a talking of some people outside was proving that I did follow with my sudden talking coming out of my mouth to their will. Then this guy from Romania looked straight at me telling: To Romanians never this could happen, he for example never had to do something. 5 minutes later, he told something and suddenly my mouth was again telling something, which clearly showed that I did follow to his will. It was the first time a Romanian speaker Romanian did take a profit from this control. Then he told, so Romanians can do! Be aware he was like a friend constantly before then suddenly doing this and never looking at me anymore. Shortly afterwards I was thrown out from work because they heard that I told some words when just I should be working. But I did not tell a word which could be blamed, I was just humiliated from the control to having to tell these words. Another Romanian speaker from Romania replaced me. These were Romanian speakers I met in Germany, who are big in Germany! But Romania owns me compensation and no hereditary guiltiness could change that, could excuse possibly the majority of crimes committed there against me! And those installing the brain control and testing it, were really telling against my presumption, that they do not see a mistake in the whole history on German or Austrian side, but on the Turkish side and Germans and Austrians did help them against the Turkish! Turkish I was not, just having a Turkish sounding name and slit eyes, so that side did not help me and nobody did blame those doing it.

I was discriminated, disadvantaged, attacked, damaged and had to bear pains unavoidable, almost daily! Then, many times, when I was hoping to get a little advantage or a problem solved in my life, ostentatious very many people were posed before me in getting that advantage, telling to me also, that I have to learn, they all come before me. I was very lately then also allowed to forward in that, but stopped from reaching it completely in the end. This repeated many thousand times in my life, when waiting at a doctor to be treated, when waiting in the restaurant to get a seat, when reaching courses at studying, trying to get close to women and many more. I tell you clear here and there is no other proof, that I was a victim of the German and / or Austrian interests of the past guilty kings (which many in Germany don't see to be guilty but they live best life quality and no sorrow) and a victim of late fascism, having since the age of 3 latest 6 constantly and only the positions of the winner sides considering these wars. Why do I have to suffer this? How can I be so inferior, that I get continuous damaged and having to bear pain from willingly mistakes and not treating at dentists and ENTs anyway and am additionally collectively attacked from my environment and damaged

with visible things in my life? The many extreme crimes I had to suffer, I want to be compensated for and a lot of bills for being used without to ask are also to be paid. But this usage I took care not to make me guilty before anyone.

When I search for a project now, I constantly get from 5 sides already the answer, that they had so many appliances suddenly for that position and they have to consider these many others, so they can not take me.

But I am absolutely sure, that there is nobody in the whole world who is not crippled, dead or definitely sick to death, who is more victim of unavoidable pains and damages and willingly destruction of possibilities in and quality of life, also of calumny and humiliations, than me in the time when I was living. But the most did so infinitely better than me.

After writing that before, the neighbours were sending a child on the floor screaming: You were the AMIS and that means you were the fascists. We all are the winners! In past month I had so much sorrow that I had to hear a lot of pro fascist and German national extremist positions in the night and around, not knowing exactly who is doing it, but like in the past too, nobody got a problem with it except me! My talking was stopping that, complaining even at police, which in proven way has in the past contributed to sustain fascists in attacking me. Even when forced in a protest, I explained to stand for the rights of the simple people even then, so that any damage done to me can be only a crime, but to be hit continuous every day of my life, like it happened and damaged severely and daily still attacked and damaged again, those could not want that, they had to take some billion people before me to mistreat them more, but only a few can daily be attacked from thousands. Don't forget, still most and mostly Germans and German speakers who attack me.

Not good enough in the west?

I was a victim merely of late fascism and always standing and making clear to stand for the rights of all especially those who need sustaining, the poorest. It was thus a crime to be damaged and not normal to be tortured in the east. My intellectual and verbal protest there made me understand that there are positions on the side of communism and eastern socialism which could not help the poor and bring problems in society and that such a solution could not last forever, if they don't change many things in their way. But the protest was still a game of other people with my life, who have used me, without to ask, also for very many not so polarised games and I could not avoid all that to happen. Still extreme damages and torture were effectuated on me, even when they had to kill 5 millions and damage other 10 millions in that country when measuring with same measures! Therefore today one really owns me compensation and also bills to pay. Now a strong will in the society humiliates me and tells me that I have to get hired and can not be freelancer anymore, because I would be too close to communism. It is like I would not pay a bill because I do not like the face of the sales person, but have used the object for 10 years already! Do you, from that side want to have that face? Then I really was damaged and attacked almost every day of my life with many things, did bear pain and humiliation continuous. I really stand for the rights of the poor and of all people, also when I could imagine to bring the advantage for all by an own enterprise, e.g. producing innovative products or similar. Terrible criminals are also those, who tell that the people and the side of the poor wanted to hurt me in continuation. I was hurt and damaged much too much in my life and any success made impossible by huge effort and attacks. I have not guiltiness before any humans or any legitimate interest. This can be explained with many words not here and justified. I am only personally in this situation!

I am still continuous attacked, from the first second of awareness in the morning to the last in the evening. Electromagnetic attacks in my brain do a lot of painful moves and produce together with stimulated, always present body pain real serious torture. It becomes this torture especially when they “read my mind out” but more they destroy any own move in my head before able to do that. Acoustical attacks from people on the street and neighbours. All this continues then the whole day, no matter if I am on the street, at work or shopping. Some people around get the privilege to predict all my moves. I have to live that way since 15 years only, almost daily. The whole day at least once per 2 minutes in average I do hear something giving me sorrow, often synchronised to painful brain control: I am old, I was tortured with that and that but they enjoy life, that bad happened or that bad will happen... No break.

9.07.:

Really who today did not understand that I am a real victim of neo fascism of our time and who, knowing everything what I told and considering how true it is, does not want that I am compensated and that all calumniations and humiliations, also all bindings of my life to political, national or religious fights, other than for compensation, should be stopped, is a criminal also serving the most extreme actual fascism, as it exists today in the world. This is not at all a comparison to victims of the past and I do never compare me, being a victim, to crippled or killed and never to the victims of the fascism of the past.

Also, any relation to the power of the guilty kings of Austria or Germany of the past, could mean that I am a victim of those powers, as they exist today or as they still influence today. I am the side standing between nations and races and being victim for not being able to defend myself and no side really caring for me!

But thank you for those, who try to help!

10.07.:

Many times in my life those fascists who told that they do not see a guiltiness at all in history on German or Austrian side (telling without to be asked about both) but they want to prove that fascism would have won in hidden way and they will bring fascism to late victory, were those operating me in Romania to get me electromagnetic controllable, could predict many times what important powers of this earth will do and impose their will to them. They have shown me that, not telling it to others. They have also tortured and mistreated me every day of my life, trying to force me all the time. They could prove me today to be able to prevent the USA of helping me. They are everywhere and seem to be everything. My life has not reason, no hope and never had a chance at all. Only torture, pain humiliation, mistreating, isolation and calumnation, was everything what my past life was. Why should I endure that?

17.07.:

The fact that I, completely different to all around me still do not have rights at all and am damaged and mistreated, did not really change. People around shout loud different things creating a political or national polarisation about me. Only which side they want to see me changed. But I was never any of the sides mentioned this way, but I could never see anyone else to experience that other people continuous tell something about him and make publicity out of that. All those people do know, that I don't matter. They live using me and they keep all values only for them.

The above mentioned does not mean those who call me Jewish. I feel honoured to be called that way and I see myself between nations and races. I know that community deserves compensation just for being part of that community and I certainly do not and can not be compared with any victims from the past, also never to crippled or killed people. But I sustain the right of compensation of the community Jewish really not depending on what I am, even when I am certainly a victim of late and actual fascism, people making me brain controllable

and torturing me making my life impossible through that control, calling themselves fascists, telling to bring with the brain control the fascism to a late hidden victory and telling that fascism would thus have won. Also that doctor operating me to get me brain controllable told that he could not see even the slightest guiltiness in history on German or Austrian side, but sees the Turkish to be guilty for having stolen women and goods from Romania and Germans and Austrians would have helped. Therefore they will prevent that I could ever reach a woman again. During Socialism in Romania indeed there were all girls from my form / class being friend to me, (I had the most girl friends) with force away, punishing them and telling he can never reach girls again, we keep that promise! It is serious when I call Ceausescu communism at least 60% fascism! There were many things pointing to that!

Norbert Kailan Ja, die welche mich schlagen sind diese elektromagnetische Gehirnlenkung, sie kennen Gedanken aus meinem Kopf und sie machen mir Vorwürfe, dass ich über diese Lenkung rede!

Norbert Kailan Ja ich bin der der auch heute und seit dem Alter von 3 Jahren elektromagnetisch im Kopf gefoltert wird, wobei die Ärzte, die mich operiert haben um mich lenkbar und manipulierbar zu machen haben gesagt, dass sie keine Schuld oder Fehler in der Deutschen und Österreichischen Geschichte sehen, aber dass die Deutschen und Österreicher ihnen geholfen haben die Türken zu bekämpfen und diese deshalb die schlechten wären! Ich hatte als Kind nicht mehr klar sichtbare Schlitzaugen und einen türkischen Namen.

Today, like on many days in my life, people around me came with terrible hate over me to punish me, making noise like air planes who throw bombs and I have head ache because dentists willingly damaged me so that an infection clinked to the ear, making this effect. I remember my grandma telling that the brother of my father did make noise like air plane throwing bombs, when German speakers were hiding expecting the bombs from British or US side. There were no bombs in Romania, but he has faked the British bombers with his mouth, getting these people angry. What I want to add, my whole life I was attacked almost every day up to more than 1000 times per day, damaged and never repaired from doctors and humiliated

and kept in body and psychical pain unavoidable every day of my life! I was no political side and between nations and races, attacked and damaged from my own family, but much more from other people around me. Discriminated and excluded from all societies, I could never represent any of them and not pay for any of their guiltiness. But how ever one want to turn it, I was innocent and I was damaged! I was standing only for things no ever accepted political side could really blame and being always against the known bad! What ever they know about the past, to continue to attack and separate me, to continue to observe and damage me is per se such an extreme crime, that I want that international community helps me to really get bills and compensation others really own me paid and to really be protected from further attacks and damages! I claim this from the winner against fascism as well as from the whole international community today!

The consequence to be damaged and tortured even worse, each time when telling to have been damaged and tortured, is also something people don't believe to be usual today, but my daily life all the past 22 years. Also, serious head ache can be stimulated electromagnetically because of doctors have failed intentionally and is synchronized to control of feeling and thinking in my own brain and also to sounds and talking of people. This is more than tantalising, it is really all 4 together torture! This is done to me daily 1 to 500 times per day in the last 10 years. Remember: also today! And that consequent answer was never different. Really, only some Jewish people helped me again, like also in my childhood and youth! I expect compensation and excuses from Germans. It was enough now (oh, since longer), to torture and attack me! Some British people and some US have also excused, French promised me help and Russians also showing sympathy! What is with the Germans and who are those up to several 100 people attacking me still daily in Germany? Never a German has excused before me and many humiliate me daily. Especially in accusing me with direct body pain damages for not to be the people's power which they "had to fight against me for" only Germans participating but never happened while I was living in the East and these Germans could not get enough to "PUNISH THE GUILTY"!

21.07.13:

I was last night in the disco and I will always respect the owner and the personal, being so kind to me! I was so happy, that in the end some people did talk to me: A girl, leaving alone and 8 men, another girl telling from 10 meters that she wants to come with me and running then with 3 other men quickly away. Three men, one with a Bat - Shirt, were very kind and we changed numbers to chill maybe together. After giving them cards written on handy number, email and "friends are the best you can get in life", they, talking first that I am a victim who should be compensated, then suddenly the only one who has given me also his number, has started to tell that he wonders that I was a victim of late fascism, because he can see that I am looking so very German. I told: I was victim for being hurt from crimes and those people were partially standing for the fascism of the past, but it is not nice how he sees it and if he looks well, I still have the slit eyes I was attacked and humiliated so many times from German speakers for in the past. He told, that would not disturb him and he can see that I am looking really German. So he does not understand how I could be attacked from fascists! They called me then repeatedly with my name on the card, but did not reveal anything from them. They started to treat me like a girl! Then I realised, that they were all 3 a head or more, bigger than me! Also they developed theories about German and not German looking people, telling that I had to look brown on skin, for being a victim of fascism in Germany! I gave them my cards!!!! **I do feel so bad now, I could kill myself.** I remember that mostly when going out in the night either I was damaged and many time humiliated, physically attacked and hurt not doing anything myself, and the from me called police did not allow any other guilty then myself, or a much bigger danger, damaging me for month or years in my life, was

coming over me! I thought, "Now I have found kind people!" OOOOOHHH, so different! I want to point clear that I do not compare myself to crippled and killed and never to the victims of the past, but I was really often a victim of neo - fascism, having also influence in the German police today!

Last night I left the window open and forgot to pose the second alarm system on. When I came back, the first alarm system could not be disarmed from me anymore. I did not fail, but the system gave alarm, impossible to stop for 5 minutes. In this time, nobody reacted, even when I have damage now on the left ear. No reaction at neighbours. When I bought that alarm system, every time I left home the alarm sound could be heard in a neighbours apartment exactly when I had the key in my lock on a certain position! Every time, but the sound damped, clearly to hear still. When I came home, provoking, many things were changed in my habituation. Annoying!

There are a lot of fascist really in this area around Stuttgart, more than anywhere else. But for sure, they are not controlled in their minds and they are not willingly kept ill from doctors. It is really done to me, still! Daily torture! It did not stop, that I fell something moving inside me every time when I sit on PC or anywhere longer in same position. Then always it happens that my own life energy and concentration gets out of my body and I feel it would be with some past 75 years old people. I get very tired feeling hopeless and wanting to die, when I do not force my will to stay inside myself. But to force that is such a stress, that I get tired after a while too. It is real torture, trying to work on my PC! Also noises mostly synchronized to that move in my body, noises coming from those old neighbours apartment.

28/07/2013:

The last 10 days of holyday I was really attacked continuous every second in my own habituation. Electromagnetic brain control, chemical substances and sound produced from people in neighbourhood (talking and moving), perfectly synchronized to conditions, positions or feeling and thinking in my brain, or often serious em stimulated head ache. I could not relax, not work, and not concentrate on anything. Impression life energy and concentration was forced to run away, where the noise comes from. Then desperation, emptiness, tired, unfocused, different when going out. It really would have been nice time without to be attacked. The complex of my thinking was reduced to an idiotic 1 channel torture, in which positions of my brain like is ok or not ok or so were plaid with a certain sound moving above my head. Suddenly I realised, for continuing a simple thought like going to eat or not I was waiting how the sound plays, to know if ok or not. Also dependency trained thus!! Many other similar tortures (synchronising to stimulated body pains, at least really torture)!

Also I realised that it really was fascism which has made me brain controllable and still tortured since 35 years, every day with it! I still do not blame any of the accepted and important powers of this world, because I know they can not care for me personally so much to free me from the position of the discriminated and mistreated when such a terrible hate cares to hit so continuous and detailed. I know they are German bound and even fascist interests doing the torture to me. But the brain control, forced me hundreds times the last days, more than 10 000 in the past, to attack or blame the British side. The brain control in my head produced pain and gave impression of damages when I did not agree to blame or attack them in my mind, relaxing pains immediately when I faked that I could give back, but didn't! I really respect for good reasons the British side and admire the royals and their growing family! Like thousands of times in the past, by torturing and controlling me more, the brain controllers want to prove a guiltiness of mine. My serious question is before who's eyes they

still need a proof when I was not compensated and they not in jail and how can it be that they can afford to attack me however they want?

I was no political side, standing for the rights of all people, being more against fascism than the most standing only for the internationally officially good things and against the same view bad things. There were hours to explain why I am not eligible to pay for any groups guiltiness or of mine, but that some own me compensation and bills to pay. Internationally this was accepted from almost all important powers; practically I am attacked, damaged and tortured every day in continuation! Who is who?

5.08

I explained here and elsewhere now so much of having been attacked, damaged, mistreated up to torture and humiliated almost daily and mostly many times per day, many days seriously and some times extreme, even when that is relative and I am not dead or crippled, but almost everything to that limit. I do not compare at all to any dead, crippled or sick to death and never to any victims of the past. I did never do anything to anyone, respecting all important actual interests, rules about good or bad and standing on the very best side only. I was also used, misused and forced against my will in conflicts, keeping myself my innocence. I was seriously damaged, but repairable! I was understanding why and standing against fascism since the age of 3 and a victim of late fascism. The brain control introduced by an operation in the hospital in my head as a child was preventing me to sustain my own rights, but until today pushing me to look much worse than I am, even when mostly 1 of 10000 trials maybe half succeeded and my real positions could never be changed by that control. But the doctor and those testing the controllability were extreme and convinced fascists, calling me inferior to the German race, Germany and Austria innocent in history and the Turkish guilty for wars, stolen women and goods. Those taking the profit behind the control in my head were and are German speakers in Romania, Germans and Austrians in these 2 countries, when I was there, many thousands of times, terrible humiliating and damaging for me. Also about 5 people from some other sides, unimportant in my life. Still not all German speakers in Romania were fascists and not all fighting the communism neither, neither all German speakers or Germans. But I was no political side and even when standing more than the most against fascism, also for other reasons not blameable. There are much more things to tell, filling many pages, many told many times, as mentioned. When I complained so many times, many reacted positively and even in actual time many are kind and helping. Still since Friday also many attacked again, and I was seriously damaged. The attacks are dangerous and could damage me essentially, the one damaged more than 100.000 times! Chemical substances, manipulation of food and air I have to breathe. I try to defend, but who knows how much it is possible and what the damages could be! I am scared, also by the verbal attacks of many people, also about those having tortured me in the past do well and I am still in the position of the discriminated and attacked. So, no life but a lot of torture? For what reason? But those blameable and responsible to equal were those attacking me! I was now frightened from a voice from the neighbourhood with to be killed because I am not so subordinated never to complain, as necessary.

7.08:

I was bothered with some words and trained also em in my head more than 8000 times in the last 4 years. These words told could not necessary mean something bad, but I can therefore understand only something bad. But always it means to involve in a privacy area that is sensible and normally one does not involve. Today, on Wednesday morning at breakfast some people were very kind to me but told this word too. But it could have been good meant. My reaction to blame that nice woman for fascism was not fair. Even when I am a victim of late (after war) fascism and some other fanaticism and criminality, I still am not perfect when

blaming others. My situation of innocence but a victim one owns to, not cleared here neither with those people, not about that! I do not know if I will ever meet them again, but I would like to clarify that I excuse for my blaming, but am grateful for the nice time and the other good words that family has told me. Certainly, I was not talking about or meaning generally sides, but neither these people I do not want to blame. They are certainly no fascists, but friendly people. Only when I would not have been such a victim, like so many times, I could get along with some little challenges. Mostly I can not, because I am damaged. Then these problems should stop that I am helped? I mean that help would be for me deserved and fair. I would like if I could reach these people somehow with this message.

10.08

Since many years I can not defend against being damaged by the air and foot in my own habituation and elsewhere sometimes. All past days, today it is the same! Damage essentially. This gives serious burden to me and stops me from living my life, even when not killing me. With all trials the atmosphere in my habituation gets terrible, this can be no happening. I have told and written a lot, hard to repeat so many times. It was cleared with repres. of all 4 winner sides against fascism that I can not be counted with any group guiltiness, but some own compensation and bills to pay. Yet I am professionally damaged and manipulated in painful and damaging way. The damages really hit in my life and I can not live this way. I want that those bills and compensation have to be paid and that nobody has the courage to attack and damage me again, what still happens every day the whole day long, with some exceptions. No wonder when I have to fail sometimes, for example blaming some innocent people for fascism. I risked my credibility, being really a victim of late fascism. But those meaning that the end of the east would allow accusing me again for having been against fascism, like in my childhood (when I wasn't seeing anything wrong, but most others, I was attacked and punished for saying that fascism was a crime and guiltiness and not for saying that I would not want to pay with the other, like they like to turn it today, terrible), are a terrible pain to me, still I am damaged and attacked daily, not them. I got the victim those late fascists were telling me that I will get not understanding that my life is in their hands. In who's hands were and are the human rights and the law? The crimes done to me are more than ever accepted that would have been done in the time I was living and not even the 10000ds part could be excusable for anything at all, even not with an interest fight! I am not a fool but manipulated and controlled which succeeds sometimes to force me into failure. Last weekend I got a food in a restaurant making my liver and stomach ache for a day, having confusion in my mind for 4 days and getting suddenly extreme masculinity for 2 days. Exactly then I was tortured with extreme head - pains em produced (and by the willingly failure of dentists) and synchronized to talking of other people. Certainly I could not behave, shouting around. It is unbearable to be accused when being such a victim like I am and those people who do accuse or attack in a planned way, do really serve the worst criminality possible and the real fascist interest of the past. To all having misunderstandings I can forgive. Forgiving is for me not the problem, neither to understand the rights of other people, victims or interest sides. But other people and some interest sides did not understand for years, that I could have rights too. And what did they have to forgive to somebody who was a victim every day since birth and between nations and races? My position is more than justified, more than necessary and sufficient reasons do exist, considering all known and accepted interests, also those being not the communists. This remark because I am blamed for that when I am against fascism, still against the crime of fascism I will always be.

Short: I deserve and need help for a good life even when able to live my life, but I am still attacked and damaged. The control in my head, chemical and other attacks are a serious burden and so I can not have a life. That's it? Only torture and humiliation and then death? I do not compare to any victims of the past, to any killed or crippled or sick to death. But there

are no words to tell how every day the whole day long everything nice is destroyed and damages and pain created, with huge effort. But the most have a different life today!!

17.08.2013

I was attacked every day of my life and I was a real victim of late fascism. I am in sure way really kept willingly sick from dentists, who damaged me in the past and don't want to remove that damage. That is torture done to me in professional way. Nobody, even today ever changed that. I claim that the international community had to do that, if the fascism did not win! I want that also the hidden fascism damaging me and being part of the brain control to loose. I am writing here and elsewhere since my whole lifetime. Please help, who are you people in this world?

24.08.2013

As I justified so many times before, I am not only a victim of late fascism and at least good enough referring to all accepted interest sides of this world, but I can not be eligible to pas or respond for any groups guiltiness at all, especially not that of those groups being guilty for both world wars, but some interest sides and many people own me bills and / or compensation to pay. I can not repeat the whole justification taking hours, but rely on former agreement with important sides of this world (4 winner sides).

Still I am attacked, damaged, kept in damages and pains, mistreated and humiliated every single day. It was same throughout my passed life, but on many days much worse and on some serious damages and torture were done to me. I did never do anything to anyone. Still when my life is only trouble and being attacked, living alone and with easily curable but never taken professional damaged from dentists, means real pains, when some people come over me and provoke me with essential things in my life, I repeatedly can not be perfect with my reaction. I am sorry for that and I wanted to show my not blameable, very best position considering every accepted and important interest. I anyway respect all nations and races and every good human on this earth is my friend (considering me). But I hope that "you" can understand that when I am controlled, manipulated and tortured and there is no trace of motivation in my life, that I do not have to be perfect, it would be more than impossible. Considering the many influences and controls I am suffering daily off, I say it had to be OK to me and all considering me without that I really try but it was never OK even when I was trying a lot. Bills and compensation should be paid, but more any further crimes stopped. This is not necessary the provocations, but the sum of influences done to me. Still a style to respect a victim society and some interest sides own to, standing only for the best things, was rather indicated and provocations really a challenge for such a victim. Why, with what you want to justify, that you can come so to me, without showing respect?

I was tortured very much and manipulated and attacked and provoked in order to tell that fascism was also playing that the little guy from the people with his testicles wanted to do all those crimes to the world and this is certainly a humiliation to many innocent man. This way my real position about it. But it is an extreme crime to dare to force me by torture in such conflicts because everything necessary to understand about my life was that I have to be kept away from problems and fighting and compensated and bills have to be paid to me from people and sides who really own me! I do also understand why men have to learn to behave and control their masculine aggressiveness, that masculinity might cause aggressiveness and why some people care to prevent such situations. I do not blame their intentions or politics. But I blame that one did not understand to pay bills and compensation and to keep me out of fighting, that one did not consider that I am always manipulated and forced to show positions and it is not bearable since many years. Still it was now explained from many people and

from the manipulated TV, that people having children on this earth do not talk this way against fascism and that I would be guilty for that. I was humiliated and blamed many times.

I am attacked now again from more people and frightened, that people of my kind, who know that fascism wanted to blame the little man with its testicles but that little man would not be guilty, could never get children again on this earth. But I am just a good guy standing for the rights of all people, being indeed always against fascism, a real victim of late fascism and other criminality of our times and suffered more than comprisable many little things that made my life to be torture every day. I want a hope and a chance in life which I never had. stop to understand political and national fights, they have hit in my life and destroyed it. Think about my life which was only pain and humiliations and that I want still to live it.

Also several people, women, in stores and on the street, predict quickly what I will tell or do. Then they tell: you think this is a crime but you can never do that to me and we doing that have children and continue to live, but you don't????? After 620000 crimes and continuous attacks, keeping me alone, willingly sick and attacked from many every day of my life since childhood and I have never done wrong to anyone, only that control in my head forcing me in conflicts which damaged me, they want to tell me that? Can you understand the situation?

I am attacked and frightened that I will have to die and that I will give up anyway. This is told in many repetitions very painful with synchronisation to some pains in my head what is possible only because dentists willingly damaged me and willingly don't repair. That is torture and it is done TODAY to me! I can still have healthy children and live this way, but only protecting my body from possible damages which caries left in the jaw could produce. Bu I was a victim of more than 620000 of crimes from which many serious, but nobody ever punished the criminals and I was not compensated. I claim from all sides that they teach these criminals that they cannot proceed this way with an innocent life and that those who own me bills and compensation, really to pay!

No, you can not blame me for be the trouble maker or sustain trouble makers. But I can blame endless. Still I wanted not to be the victim anymore and that bills and compensation are paid. Why can people attack me now more again? Why started this collective humiliation and attack again? Did I really have to stand for fascism for being compensated? Tell that to all then and make it official! I claim that the control pushing these people in attacking me to be punished and all to learn that they cannot hit an innocent victim forever. My whole past life was since birth, that all people around me attacked and some damaged me. It stopped for a couple of month. Now it gets the worst way again.

31.08.2013

In my own habituation I am still continuous attacked, damaged with brain control synchronized to acoustical signals + I feel like something coming over me, even when I am alone and this happens only here, even when I stay much in hotels.

I can be multiple controlled and manipulated and instead to stop that and compensate me, the control gets better and better and really succeeded again, like uncountable times in my life (but maybe 1 success with 10000 trials which are all somehow torture), to humiliate me before myself. So, like usually, when I am attacked, damaged and even tortured, they do this even more until they have a reason to blame. No, not a real reason, because I am a victim with

all that, but a pretext. Mostly, like now, it does not reach even as a pretext, but it is damage to me, to my dignity, my self confidence, etc. Certainly, I can not be perfect with words, when I am under conditions of control and torture. My hope was, that this control will not hit against me anymore. Not the provocative but ambiguous words, but the brain control torture forces me to react.

Unknown people tell me that I am too old and a grandpa and I hear this 50 times per day. They also told me for more than 1000 times in my life now again, that people will continue to have children and do well despite me. ????. Some also show me proud their children, but nobody did answer like when I was shown to the major of the city: sweet, but what is with those eyes, are not so good (slit eyes having)!

To be fair: There are also some not knowing me being kind to me and several young women coming to tell me nice things, too. But I can not believe in a success when I am attacked all the time. And so easy follow my eyes to the twens, unreachable, impossible to ignore.

To remain fair even more: During the past 15 years in Germany I was not able to get contact to any people but I was attacked from many daily. Just very few women together with more men were blaming, humiliating and attacking me in discos etc. During the attacks against me there were humiliated and blamed also USA, seldom GB and the Jewish generally and it was a lot talking about symbols of fascism. They were hitting their frustration in a life of a victim of our time, what I explained many times to be and I could talk years to explain that. But I was attacked personally even without these matters.

But the brain control in my head, the fact that I am attacked in my own habitation and that willingly from dentists once created jaw pains are up to today willingly not cured, are hitting from behind in my life, making me hopeless, no self confidence and growing risks in my life and body. Why could this not be stopped since more than 15 years? And the national and political themes mentioned in last post, I did not deserve to have any problem with that and I just tell what happened, having no intention. I can just tell that I respect all and some even more from the winner sides in both world wars and I do believe that Germans and Germany can be grateful to them. I do also respect every nation and every good human on this earth I want to be a friend to.

5.09.2013:

Even when I was a victim of late fascism and serious discrimination of our time, I could never defend. I was alone but collectively attacked and excluded from German communities. Very hard to find friends. Those hitting in my life have power and relations and worked a lot very effective to prevent that I could find connections or friends, clearly trying to convince interests and sides against me, were not successful. With a lot of effort, which not all people could bring, I succeeded to find positive relations and friends outside German communities. But instead to start now to compensate and pay bills for the facts in my life, one tries again to bring some not German sides against me. This time following: many people humiliated me and attacked me on the street. Then somebody was just pointing to this fact but suddenly I got all stress out there and started to argue with him. This guy was spreading an image to be possibly French, but talking German. I realized that even when I did merely tell about that I was a victim in life there was still the possibility of an interpretation which could point that I would ignore the authority or not regarding sufficiently that this guy was French and I wasn't French. Also I realized that as much as I wanted I could not stop to argue. This repeated then and again when I was arguing because of being attacked from many and many times before, there was close to me, but I was this time not talking to him, a guy having a style pointing to a

typical French image. Then a lot of Germans on the street (not present at those occasions) were talking that I would have guiltiness referring to the French. Some people were very angry that I was getting the French citizenship when I was in France for 1 year as an honour. No it was pointed from unknown on the street: now this is finished that you are with the French! Was like a victory they had against me. It is not a mistake that I talk about this brain control, but they hit terribly again in my life with it, when there were more than 600 000 reasons to pay. I do respect France and would consider not to argue with people coming from abroad but Germany owns me a lot and I am, different than the most citizens not eligible to pay for any group's guiltiness, for more than necessary or sufficient reasons. But the conflicts in which I get are controlled and still nothing really blameable!

They were trying to bring me against Great Britain with manipulated TV, brain control and talking of people all synchronized many thousand of times and when I contradicted they were humiliating me badly, one of the worst humiliations I had to endure. But also this week I was controlled to react in a not ideal way when even something positive was reminding or pointing to this side. This was surely also controlled and I succeeded to pose everything right in the end. But so impossible for me to understand how some people can have so much hate against my life, that they still want to bring me against interests and nations and those against me when in my life I was standing only for the very best things but I was mistreated and controlled and this prevented from being seen so positively, even when not real bad image possible. Same time many people with very bad positions were posed from the control system to be very ok and got advantages and international acceptance. Die Deutsche Seite kann mir nichts vorwerfen! Rein menschlich wären man schon vor vielen Jahren verpflichtete gewesen, mich zu unterstützen.

I was tortured the whole night long. I am sleeping in these days often elsewhere and I can tell: I am really attacked and tortured in my own habitation 71116 Gärtringen Moltkestraße 24, Germany. I do not judge any of the neighbours and want just to stay isolated from them, but I believe it is rather those living above me than those below, responsible for a torture which is executed also with brain control and moves and talking perfectly synchronized to the brain control but also with chemical influences appearing sometimes. Additionally with?? but I can feel it in my soul, must be brain control. I want to be save from this, I can not continue to live this way and I bought the habitation (idiotically, but done).

I am not attacked in other places in comparable way and I want to be safe from the attacks and saved, sorry fro grammar errors.

7.09.13:

In the last 5 weeks I got from environment food / air not by happening, influences to get more masculine, while mostly I got influences forcing me in direction of feminine. But additionally I was influenced with something having unpleasant taste and smell, making me immediately nervous in a way that I want to shout and get angry immediately. So I was getting angry to wanting to attack a woman telling to like me, also some people telling positive things about me. Every sound or talking from people when I did not expect that such people could talk to me did trigger such a reaction, from which the most I could hold back. Add to this manipulation that I am brain controllable for short times even like a robot, forcing feeling and thinking and wrong combination of such in my brain, you can know that it got impossible to me to fight what then happened, a plan of people with my life wanting me bad, like mostly. But I was attacked many times every days with voices from people I could see or not (e.g. neighbours in the hotel) telling humiliations, or creating sorrow or frightening me. The simple sentences, ambiguous if good or bad meant to my address, were following to many real

humiliation heard before, were containing for many years from many people almost daily trained humiliations, when similar theme was told only to humiliate and act negatively against me. When I got then nervous, having the negative interpretation about that telling, this was sure, because too many manipulations were pushing me into that. This was used to tell that those people would not have been Germans but I would be German and I would have failed now referring to non Germans. It was told direct or insinuated, by how these persons were appearing later, after I reacted. Immediately it was concluded that I am generally “that bad German” which is guilty before the world and many Germans on the street not knowing me did know that, but not everybody. This happened shortly after I was telling to many Germans attacking and humiliating me, that I am a victim and a victim of late fascism and one owns me and I am also lately considered to be a victim internationally. After talking to the 4 winner sides against fascism about many crimes and attacks done to me almost daily but much worse on many days in Germany and Romania in the past, representatives of all these 4 countries called me either Jewish (I don't know despite a lot of talking in my childhood, but I know that some Jewish people helped me repeatedly in life) or that a compensation would be indicated anyway and that they know that I am a victim.

So, I do respect all nations of this world and also all good people and consider also their responsibilities and positions, as far as known and I can do what I want. But these situations were all forced in my life and I could not do anything about it.

I forgive to those people involved in the conflicts, assuming that they were not knowing on what kind of game they participated and that it was sure that it had to go out that way, without that I could have possibly changed anything. I did not tell anything really bad, rather those humiliating me before did, but still I am sorry for having told things much worse than ever could be my intention and I would consider who these people are under different circumstances. But I can forgive to anyone anyway, only I want that all attacks and damages are stopped and I get equalled the necessary to have a good life.

Here could be written much more why behind the sufferance in my life and behind lately bad happenings stand real bad criminality and direct connection to the fascism of the past.

__new:

I am still attacked, even when not so extreme in my own habitation. But I am attacked in life everywhere with brain control, chemical influences, collective attacks from many people and many humiliations. Also in offensive way it is told many times to me that my desire to still reach young women and to get a wife to have children with would mean that I would be obliged now to live like and together with and to concentrate also my sexual desire too, to people more than 25 years older than me! These people aggressively run in me at shopping, come in groups around me on the street and talking provocative and humiliating things about me. Also the whole day long, each 10 minutes some young people are shouting clearly to me grandpa, take your tablets, we'll talk about illnesses, etc.

Those helping me to reach to have friends still do continue to help and some nice, young women were so kind to me. But it is very important that on such a day of torture I can look into a pretty face for 5 minutes and she tells nice things to me. I am psychically under the conditions I have to live in not able to really reach such a girl, but I will try to free myself from the shit created inside me psychically from those attacking me and to get better!

Also indeed I have 1 healthy problem: dentists professionally damaged me and did intentionally not repair that any more and all dentists in Germany contribute. This info is reliable, it means torture to me and a lot of risks which my body has since 25 years, but no

definite damage yet, so I can get everything life has to give. I still want the doctors in jail and the problem solved! I can talk here for hours to explain, I am justified! I point that even official neo – fascists in Germany are not kept willingly sick but many can enjoy their lives healthy, but there is nothing any acceptable and accepted side could blame me with and more than 605 000 attacks to be equalled, more than 100 000 crimes punishable by law never equalled yet and more than 100 serious reasons to compensate. Still it is true: I was pushed into sufferance for more than 25 years of my life and still kept there by willingly done and willingly not repaired damages from dentists! Also many other terrible crimes were committed against me, but never I did something to be a crime. Please do answer to those not understanding compensation (also bills) to be paid now but torture and attacks stopped is necessary to happen!

Also it was told recently to me in a hotel in which I was attracted with many tricks to go, that all those more than 605 000 attacks, more than 100 000 crimes direct punishable by law, more than 150 000 games I was used for without to be asked, the 4 big damages and tortures happening in my life, I would never have reached if others would not have plaid with my life without to ask and mostly against my will all the time, and the fact that others play all the time with my life, taking everything for their game and control inside me and not allowing anything nice for myself, I would have owned to my king. When they told this they formulated in a way not possible to that they just wanted to humiliate kings, but they did. I respect the existing kings, especially those from Europe and most of all those from th British side and know that their people do well and they are well paid when serving with something. Also I expressed my sympathy to the British side and was hated and attacked for that, telling they would not sustain such sympathy. They could not have meant thus that side and I am German citizen with all the respect and sympathy to the British side I was not a member of their side but always had this sympathy and respect.

If I could just explain to the whole world how unfair I was and am continuous treated and how you feel as a man when really worst discrimination and continuous damages, pains and attacks are done to you when officially discrimination is not allowed but almost all from all sides around you live beautiful lives in dignity and happiness. But rather I would not tell anything but all problems are stopped and I get the compensation and can live a good life. Still you can not ask that I should not talk about brain control, before that control did not stop to hit in my life and bills and compensation are still not paid. And justified like this was at all times everything what I did considering my own will.

9.09:

Even when I wrote that there were more than 100 000 crimes done to me and never punished or equalled, more than 605 000 times I was attacked and more than 150 000 times used without to be asked and without that it was asked officially and against the official law of the countries I was living in, I know that I am not exaggerating but talking about facts. But not even once in life I did attack. Still some people continue daily to attack, damage or just humiliate me. I am just a victim claiming to have the right to live, but some people and at least one interest do not allow me to at all. But all four winner sides against fascism have told me by direct talking to representatives, that I deserve compensation or to be helped at least. I was severely blamed not to be the winner when I still blame fascism as guiltiness. Wow, that is the same this uncle from Thiess Dieter told, when I was a child in Romania, that fascism would have won. The brain control system hitting in my life since birth blamed me electromagnetically in my mind uncounted thousand times and posed many people to blame me more times for the few little things happening in my life some accepted interests could maybe blame me for. But I was a victim of brain control, manipulations and mostly also

torture to get in those situations and still they are so to be ignorable from serious people, no matter which of the accepted sides. This system has also proven to know exact details from almost all times of my life. But they had to know then these more than 100 000, more than 150 000 and maybe even more than 605 000 times which together with all other facts in my life assure in worst case calculation for myself, that I can not be eligible to pay for any groups guiltiness, but some interest sides and people own compensation and/or bills to pay to me. Still never a word about the damages, only to humiliate me for having been damaged, like that would be my fault. In sure way it was not at all that, because I could not avoid those situations leading to the damages for reasons posed by other people, playing with my life. That brain control contributed the most. I could find more than 100 000 general crimes on this brain controller side. I told, they have to stop to attack or to humiliate or to do anything unpleasant to me at all, on all areas for not talking about the brain control before bills and compensations are not paid and they have to save me against damages and pains in life after they have compensated and paid the bills. Those playing with my life and doing this bad control in side me match perfectly to all shown images of bad people and even terrorists, which are shown in films, cartoons, fairy tails etc. But I am just the innocent victim searching for a hope and a chance in life. Life I never had, torture a lot, I can see no chance hope I have none. But probably in this night and in the morning attacks were come over me many from which real crimes at least several and some little damages. I hope that this time it will not be that anymore, but it was never different in all 30 past years.

14/09/2013:

Even when one would own me compensation and bills to pay and nothing could give to anybody a right to blame, even when I am not perfect but because being the still controlled and manipulated victim, and even some good sides and people do really help, still I was attacked in the morning, harassed the whole night and in the morning and have the impression to have been damaged over the night, hopefully not too bad. Also I was damaged with my healthiness over the food again, but can take helpful counter measures to hare a good hope never to have been definitely damaged in my general healthiness and also nothing visible like that, not knowing where. Either one comes again in my own habituation because when I was away for several days the power was interrupted so that the accumulator of the alarm system got empty. When coming back the whole habituation was stinking because of the fridge. But when repaired, the alarm system worked again and the fridge clean. Still next time when I left (alarm system working before leaving, tested) the alarm system did not recognize me at arrival but did alarm, sending pictures somewhere I do not know. I had to reset the whole system and took some other measures. With the other alarm system it was the same: the system did not recognize after a while the remote control and my own password, but did start suddenly without reason sometimes. Also with that system, when I left home the sound of the alarm came out but more silent than alarm from the neighbourhood, somewhere, always when I turned the key to close the door, even at the same angle of turning the key. Many times, repeatable.

Since I have written last message down I was terrible attacked, every minute a humiliation and a talking implying my life in big fights and hatred of political and national fights can be heard. They told also that when it would have been considering me, the whole working class would be Russians now. With this opportunity I remember that when I told to some people attacking me here in Germany, that I complained on all 4 main winner sides against fascism about the attacks and damages, the humiliations and pains done daily to me in Germany, some representatives of their governments were calling me to be eligible for compensation and to sustain me. Still there was longer no answer, but the attacks continued. There were some breaks of attacks, but started again. Then with next time telling this, it came lately the answer:

You do not know that Germany controls Russia today. With this you are just the looser side. But the crimes committed against my life can not be excusable before the rights, laws and humanness or morally for anything at all, even when I can forgive to many of those having hit me.

I repeat again, that I was attacked, damaged, mistreated, used and misused without to be asked, humiliated and calumniated almost every day of my life, up to many thousand times per day, since the age of three until now. I was on many days a victim of more serious damages and crimes and had to bear terrible pains and professional torture almost every day for more than 15 years. I was one of the few people never attacking, always wanting to help the needful and really wanting and standing only for those things which could never be officially blamed. I was a real victim of late fascism and frightened, mistreated and damaged from people standing today in a clear way in favour of fascism. I was alone in life, attacked and damaged even from my own family. I was operated several times to get brain controllable and controlled into my big damage all the time, every second, even when not all controlling did damage me. Many hundred times in my life, I was manipulated to get in a conflict, but I always could at least take care not to get guilty before anyone and to make clear about having not blameable positions, if not every second, then 2 seconds later and before, even when most of things happening were presenting me in a way I was never willing to appear. It was real torture and damages to control me in that situation and exactly those who have pushed me took then care that I was drastically punished and terribly blamed for very many years of my life for reaching that conflict! But nothing could be named that would make me officially blameable ever. This game, many hundred times in my life, but many other attacks and damages done to me too. Those guilty were not official interests, standing closest to German interests and being partially real fascists. Still many Germans and German speakers around me were still standing visible or hidden in clear way in favour of fascism, never got a problem in their lives and were always getting the advantage from the brain control controlling me and many in society, certainly never talking then about it. I mentioned and there would be to name many thousand reasons more, that tell clear that even when I was not perfect in life, one gets guilty to blame me or search for a reason to find the mistake on my side, but even an idiot and a murderer would have understood now, that the crimes against my life have to be stopped and one has to pay bills and compensation which one really owns. I was really more against fascism than those winning against it, but paying very much for that from fascists, who didn't like it, no real help against. I was standing more for the rights of the simple people than the socialists did, honouring their intention to help the poor and regarding all their arguments, but explaining them the intellectual mistakes in the communist theory and blaming fanaticism and crimes happening from that side too. I was sustaining the right of all official victims for compensation and never comparing to bigger victims than I am, but blaming some criminals with comparison to known crimes, always in a way to respect and not fail referring to the victims. I was never fighting in awareness for any side, but I was bearing the burden of the east west conflict, more than many fighting in this conflict who were from both sides well paid and I got only damages, torture and blaming. But I was attacked and damaged much more than any interest could ever explain, even that to make a slave and use him by breaking his will with torture. What ever side is stronger today (knowing that fascism and bad sides have lost), it is humanness and justice telling that I have to be compensated and bills paid and one has to stop those humiliating, harassing and calumniating but more those damaging me. It has to be an answer to crime and a chance for a good guy to live! Nobody could humiliate himself more or prove to be himself the wrong side than those accusing and humiliating or doing even the worse things against me. These all rules, laws, knowledge and justice people know is concluding. Now, what matters for those still attacking?

15/09/2013:

I explained more than sufficient reasons to know that everybody finding a problem with me, blaming or fighting against my life gets automatically guilty before all good intentioned people in the world, all ever fighting against fascism, all known and accepted rules people do follow and the law in most important states, except some real misunderstandings, no matter that I could forgive to everyone. Last night in the Disco the brain control was controlling my brain to make pain and problems and giving to people around the opportunity to read out my mind. Some people I don't know blamed me about something happening days before 70 km away. When I was thinking about that, explaining in my brain that this was no guiltiness of mine, the answer was told from some girls around, but something changed and other words stopped so that it meant still bad for me. But terrible head ache caused from reading my mind. Then I repeated to thing it right and finally, after some trials they stopped to bather. The whole night political and national fights were so imposed to my brain and people synchronized to it. Every time it happens that way and I have terrible pains and stress unavoidable and if there is in my thinking, even when this thinking is controlled from others, something no matter which interest of this world could not find absolutely perfect, people around blame severely, really hearing my thoughts. It is explained that therefore girls will hate me and it would be fair that I could not reach them. But then some other people around fail terribly before the same interests and are loved for that, nobody finds even the slightest mistake in it. This way around me some people did humiliate the Russians, the USA, Great Britain and the Jewish very many times. In this Disco, the pain and control done to me was mostly less than everywhere else and this time it was also not extreme. But more than necessary to forbid my life completely and to make terrible pain out of it, no matter what I would have tried. Who finds a problem in that I was getting nervous, even when slightly visible, fails in extreme way hitting in the victims side!

Why can they hit me all the time and nobody changes that?

I am very disappointed about myself, intellectually blinded several times, even when I know a control can do that to me I never have a proof, mostly not even to myself. When I failed for such a reason it was a little failure. Still I was impressed, that somebody nothing having to do with any control excused when I failed. It was really great. When the TV told some things today I can not be sure if it was the TV manipulated or really the intention of those shown. I do respect and admire those shown anyway and would be very honoured to be pointed. No matter what that really has then to do with my life, I know that I was with those being on the good side of people, I could not change anything myself in and about my life until now and I had sufferance and no hope, did not see a chance, almost continuous. This is no blaming to those people I meant before, neither to anybody wanting to help.

16/09/13:

It is a fact even when only I tell it that I was a victim of continuous attacks almost every day of my life and much more damages and attacks on many days, and with my will I was standing really and only for matters nobody could ever officially blame, being no interest but considering them all, as needed. Political, national and other interests and personality I was never any of those, but I was a victim of some of those and the fights between them and innocent before all good and accepted sides and people. I was really used and misused uncounted times, never asked. The sum of bills and compensations owned to me would exceed payable amounts, even when I am not killed or crippled or sick to death and I do not compare to any victims of the past neither. But I want only that all crimes against my life are completely stopped and I am helped to get acceptance, friends, a wife and at least one own child. One has direct stolen by force more than 7 women which wanted me and I wanted

them, for some people frightened me that they want to do that and they did, like many other damages. They are those stating in favour of fascism but having healthy and beautiful children today. I know that some big and accepted and also good sides on this earth are fair, also many other sides and people. Then they will and I have understood that they also do sustain me, to reach that position told above. Still I could see that these sides do really help me, but others do really hit severely against that help. When doing so they were hitting mostly in my life, very many times trying to bring me against them or just force me to tell something what could get them angry in unawareness, also presenting visibly reasons to them to see a problem with me. The damages done to me are severe and helps intended for me are stopped and communication changed and positions faked. I am controlled and manipulated that also meaning pain up to torture continuous for me and have to appear under these conditions before others. Those hitting in my life, by continuing to do so, not only contradict some people and sides helping me, but also damage these sides repeatedly, but they damage much more me! They did never change their intentions, just the way to reach them.

Concise last post: I am the good guy but needing help for being attacked and damaged all the time. Good people and sides will help me and they do but some do still hit against that. They try bringing me against them and them against me, many times per day. They contradict and damage those interests and cheat and lie to them, but creep before them, but they damage much more me. I am manipulated and controlled and under the conditions of being controlled and tortured by those hitting me, those helping can only see me if they come to watch.

17/09/13:

In a MediaMarkt store a good example how the brain control damages me. I was having terrible head – ache possible by willingly failing dentists in the past and the brain control of that moment. The most accentuated pains are synchronized to the talking of people telling what gets through my mind synchronized too, but is not necessary that what I mean or really think. I was already crazy about such influences for pain and anger. A girl was telling me that I am Jewish exactly in that moment when I was started to complain about being attacked from the system and people talking together with it. I complained to be collectively attacked even now like the Jewish were attacked before closed up in concentration camps. Pointing clear not to compare to any crippled, sick to death or killed and to any victims of the past and sustain their rights no matter if I am a completely different victim too. But the girl understood probably that I was blaming her to do these collective attacks and got pale and quiet. Sorry, I feel honoured to be called Jewish and I will never blame people doing that, especially that girl, who might have been Jewish. Her telling was also a question, not clear what it was. My will was to be kind to her and grateful and nothing ever else. Got out different? Ask the brain control hitting me with many other things every day too. The head ache and humiliation that thought in your head no matter if imposed can be heard outside, humiliation that these are always worse than what you would ever represent but still moving in your own head. Only sometimes my real will gets through and only nice things happen, but still I should not be attacked with this synchronizing to my brain.

Last week one was trying to bring some Chinese against me because I was many times humiliated for slit eyes from Germans, it was a misunderstanding what got me angry in the end and they told me many nice things too. Still they were trained to know things to possibly give me trouble. Everything so far from justice, but that Chinese couple I forgive too and remember them as really friendly and open minded people, showing a lot of sympathy, so they have my sympathy too. When I have misunderstanding it is no happening but the whole game is forcing that.

21.09: Even when I could never see a use but huge political implications were then occurring, today it continuous that I am forced to do or tell things making me appear much worse than I would be naturally, also foolish, but many manipulations and control are done to me to reach that, what means terrible pains up to torture, damages and many more trouble for me. But almost everything what is not absolutely perfect referring to one of the at least somehow accepted interests of this world, no matter which, even when average are less perfect referring to them all, even when I explain how much a victim and controlled I am, is drastically and multiple punished. Also a lot of inculcation to an innocent one owns to. After people have blamed me for that I was searching at getting promised help on side of Russia too, in a restaurant the brain control was giving me a trouble with a Russian. The brain control plaid in my head that I want to unite my soul and concentrate my hard entirely in a position I like to do to a young girl which I love, to an old man passed at least 70. This was forced from the brain control inside my head repeatedly so strong that I got crazy for pain, having never any interest on men or older people. This is serious torture too! But this man did turn his head looking at me and after several times also starting to talk, exactly in that moment when the control forced me to concentrate on him. This was repeatedly perfectly synchronized. That got me even crazier. I started to talk complaining generally to be a victim in life telling that my position and facts in my life assure that I can not have to pay for any groups guiltiness and do not have any personal guiltiness, but some interests and more people do own me compensation and / or bills to still pay. He got then nervous telling that I was not Russian but US and thus the enemy and therefore, when I was damaged it was OK. I was damaged in the east, but the situation was a game of other people with my life which I could not have avoided, the damage was a serious hurting of international protected human rights and such mistreating forbidden even in times of war to a prisoner and the damages could have been easily repaired, but I was never helped and damaged even more and humiliated and not treated or mistreated at most doctors were I was in Germany after entering the country. So many times I complained no help. Then the old man was humiliating me starting to talk about my sexual organs. That got me with this control in my mind terrible nervous, but the waitress and toe owner of the restaurant were also Russians and did know each other. Maybe this guy was the owner. The waitress did not want to bring me the bill so that I could pay and leave. But she and her daughter were very kind to me in the time before, while I was eating. I called repeatedly the bill, but she was starting to work in the kitchen making noises and cleaning dishes etc. So I was standing up to call her to pay and leave because I could not stand the stress and did not want to get in a fight with that old man. But she started to talk loud alone, now one has to. Now one has. But she did not intend to come with the bill. I was waiting and then really getting nervous, then she came and I paid. She told, oh, you just had to tell something sooner! Just tell it! But I was so nervous because attracted further against my will from that old man, that I called generally people to be shit who do not do what they should and other things which are not really nice and I do not have such meaning. Finally I left without a thing told to be seen direct as an affront on the address of those people, but still blaming. Days later this attraction to this old man gives me still trouble in my head and I fell damaged by that. The brain control is doing that to me and the whole discussion and trouble would not have happened without the brain control would have tortured me. To those Russians I do certainly forgive, but I do not want to see that old man ever again, the daughter of the waitress was OK!

Considering the facts in my life there are more than necessary or sufficient reasons to know it is a crime to inculcate or humiliate me but one has to pay bills and / or compensation, at least give me my life back and stop the pain. I hate murderers and I was always more against fascism than most of those who were fighting in the war against it, but even a murderer would now not to inculcate but that I have to be helped and more everybody else had to have this

position now. But it happens that every day is still pain and humiliation, damage and hopelessness for me and a lot of effort visible to make that sure!

When I was telling to have seen how the children of most of the German speaker pastors got relaxed, smarter than naturally, but boys with strong muscle and nice face and women with big breasts and very feminine body, while everyone else could not reach that in socialism and I was tortured and damaged for being the “western side”, even when I was forced by torturing methods in the conflicts but really never convinced for that politics still standing for the rights of all people, I told also in a restaurant that when I can see people from Germany or Romania being made today to be much better than naturally, even when I have money I can not buy such means, then a girl around me, which was friendly to me but related to the Romanian side, who was made with such means got damaged and looks so simple now. But I was damaged too and no help. I did not mean to take her or somebody something. I did just mean that one owns me a lot, has a lot possibilities to pay but one did yet not pay. Only that one really owns me I want to get! But very many people got very much more than anybody could have owned them.

It is really humiliating for me too, how much the control could change my inner relaxation, my personality and concentration ability. I look and live so much worse than it could be. Astonishing how, after a life of pains, damages and tortures I could not defend against, some people can really have the interest to tell me that I should not consider me to be too big. Also when I was controllable like a robot and could really for many manipulation not avoid at all any of the at least somehow relevant conflicts in my life (which all could have been still ignored by the other side in the conflict but there were mostly drastically reactions), they complained that I would be unsubordinated. But those complaining this way are a huge power, have really good contacts and collaborating with extreme fascists and were always served from state and law. For 100 000 reasons the unsubordinated blaming was exactly the opposed. I was generally tolerant more than the average but hit all the time and forced to look different by torture which nobody else had or has. They really push to extreme the opposition of justice and the humiliation of those really caring for wrong and right. And I do not confuse here anything, my positions of wrong and right are not politically dependent. But there are several sides controlling my mind.

But to be fair: some people in Germany do signal to pay and do something like that, some non German sides do really help in words and some visible help and I did not want to see the German speakers in Romania and Germans here to be still fascists. When I blamed I just defended and the trouble I was talking about really happened this way. Some people really had such extreme terrible positions. Means the wrong done to me and my anger and desperation do not make me guilty before anyone and I did not cause the trouble myself! Still I claim that I get satisfied and I do not ask too much for that. While I have to learn to be the one failing and too foolish to reach that position, while I am continued to be attacked and humiliated, this can not be reached. I can not wait longer. When Germans and German speakers tell I would also be like one of them, they were still reading out my mind and were many and I was alone and can never read anybody's mind. But every day I am bothered hundred of times with that some others read my mind out. It is torture necessary to keep me in this dependency and the dependency is torture too. For being attacked daily by many excluded and mistreated from society here in a way I hardly can imagine elsewhere and to somebody else it was done, but even the last is never humiliated. But when I blame I am still afraid about how their community will answer, because the humanness and justice commanding them to allow me the good position did not decide in the past. But I agree, political and other interests were always implied too.

I am continued to be attacked in my own habituation. Also consequent, whenever I have a phase in my life in which I would relax (shower, stopping to talk to myself, after meal), and one can not live without relaxation, with exactness of seconds one reacts and does a pain which necessarily takes the possible relaxation (psychical and or physical unavoidable pains, repeated many times). Also means to get foolish, willingly done illness by keeping sick teeth in the jaw and air imposed everywhere to me to refresh the jaw infection keep a stress which is a thread against my life. Some people then, like always, inculpate me for being stressed. Certainly I can not believe to have a chance in my life this way, but it was never a chance in my life. I wrote thousand times, much more explained, always more to tell. But I claim that it has to stop now and one has to compensate. A minimum of humanness, love and justice would force every people and sides to do that, but I still do not blame the official big sides of this earth, because they could not care for me personally in sufficient way like those doing the continuous observation and torture do, which are certainly none of the official sides.

Ich würde hier ja auch mehr deutsch schreiben, aber ich will dass die Freunde mich verstehen, die ich nötig hatte zu bitten mir zu helfen ein lebenswertes Leben zu haben. Das heißt aber nicht, dass ich die Entschädigung nicht von irgend welchen deutschen Interessen erwarte und das klingt nicht so: leider zu teuer! Kann nur hoffen, dass ich das falsch verstanden habe. Aber man muss erst richtig anfangen damit, dir Folter gegen mein Leben zu stoppen und auf allen Ebenen zu entschädigen. Denn nur so kann ich noch eine Chance im Leben haben.

Another matter: A new hope an oral surgeon I was sent to from a pharmacy sending me to an hospital with a text, explaining that I have pains since years in the jaw and wants to be checked. When I explained the pains must have been bad intention or worse failure of doctors, he defended the doctors and then told, OK, you suffered a lot, was maybe not correct. But he was writing in very old German containing no words related to other languages. OK, I would not have seen that, if he would not have pointed: is that correct this way? But all those Germans standing still for fascists were never damaged on the teeth, so could not reach him and I was a victim of late fascism, fighting also German national accentuation, being hurt and hit many times in my life for that from people wanting to ask it different, using my slit eyes and name as a shield against protests. I was never participating. Now this. On that day were given means to me to be extremely nervous and I have seen also the last visit, that the doctor pays attention that you stay completely relaxed. If not, he starts to fight immediately and finds different problems with you, while he is watching every little move, even of the eyes. I was also provoked repeatedly on the way there and attacked from the brain control in my own head. My answer is that either this doctor is a fascist wanting to give the language problem intentionally to a slit eyed guy (in my case, the only I talk about, of a lonely person in Europe being victim of late fascism in the childhood it would be that also fascism) or to impose a clean German language not containing any borrowed words, or he has humiliated a victim for he has a problem with Germans, or it was a complete misunderstanding what I hope but not believe. Where is my hope to get healthy in the jaw Dr Dümmler from Bruchsal?

22.09.2013 Trying to have own thinking and get relaxed out of bad. A lot of talking about political and national fights bound to parts of my body. Then brain control moving so painful in my head that I got almost crazy. Still it was less then on most mornings. Suddenly a loud, proud voice: We know you are tortured, but those torturing you have children and you will die! I remember what was told to me at school in Romania when I was a child and 25 of 30 German speakers around did agree and know it anyway, that fascism would have won and the brain control leading the people in their head will heave the Germans above all other nations in the world and will be a prove for their victory, even when officially told different. But they

added: to such people like you don't knowing that, we will prove you personally that fascism has won, by keeping you in the position of the tortured and damaged and nobody in the world will change that, so exactly that crime, to torture the innocent victim will be victorious. The uncle of Thiess Dieter in Romania was the adult explaining that, the children all enthusiast about it. When I would not have been attacked and they would have allowed me to have a life I tell OK it worth to live it even with the pain in the past, what they have seriously to pay to reach that, I would not remind about these things. Also I fear the power of those hidden fascists still hitting in my life, of the interest of German speakers from Romania, which on the other hand I feel sorry to spread this bad image about them for some people who were not criminals on their side, but they still own me too if they did not suffer for being attacked like I did.

In that classroom many times mentioned, I was humiliating before that operation which damaged me intellectually was done to me, several times a couple of pupil because they were talking in favour of fascism or comparable, with predicting things they will do or tell in a way they understood only later when they had finished doing that . Repeatedly I could succeed with several this, only by my own brain power and it was my own decision to do so, having the reason to teach them that they failed seriously with their positions. I was still blamed for that and could not enjoy the intellectual success (why do you give trouble to the poor children, but, I had a reason!!!). Since I reached Germany, many thousand times many Germans did predict things which I told or did in suite, realising this while or afterwards. These people could not have an idea about what I will do, but the brain control torturing me since that operation, called anyway to be the hidden victory of fascism, was doing this to me, allowing them to know these things. They could enjoy this advantage and nobody did blame them. But I had terrible head ache when the system reading my mind respectively forcing that I had to do some things immediate to me in that moment. I claim from all good people in the world and from all accepted and big powers, that they stop such crimes against my life and help me to get equalled all crimes done to me at least until I can have an acceptable life.

I am really attacked all the time in this habituation with a lot of not ignorable things.

Even when I was attacked, damaged and had to bear pains on many days much more than generally, it was assured a rather high level of unavoidable and not caused by me pains, damages and humiliations almost every day of my life. They were hitting and damaging me during my lifetime many thousand times for that I was blaming fascism, they were hitting and damaging me many thousand times in the name of the communist side and they were hitting and damaging me many times also in the name of the western side. They were hitting and damaging me much more than any interest or purpose could ever excuse but in that time all those standing an the sides which I was hit in their name of, even when they were fighting each other all from all sides were not damaged, nobody did hit them and most got huge advantages for living.

I am continuous attacked in my own habituation.

Again people talking from above coming over me in my life, they are mostly those most guilty before my life and I have seen those standing for fascism on that side often. They frequently tell what I want and what I am, terrible lies which get pains to me. They also tell things in such a way, that what ever I answer it can not get out the right way. But I tell, certainly the facts in my life tell that nobody can inculpate or proceed against me even when nobody is perfect and the control forces me in bad directions heavily. But one understands that it was necessary to pay bills and compensation, for that I can have a hope and a good result in life, but much more the sum of owners would own me! I say, that I can excuse to

everyone, but it is morally and intellectually not excusable to find a trouble with me and not to give that help which I need for being able to accept my life. It was easy, even when damaged to repair quickly so that I can reach everything people want in life and have the happiest and satisfactory life 20 years ago. One did not help, but some did care to make terrible torture out of every day unavoidable, even when owning already then more than ever possible to pay. It is possible to compensate, I do not compare to crippled and killed and not at all to any victims of the past, but daily damages, humiliations and pains, on many days much more pains and damages keeping always chanceless and high pain level in life with continuous blaming and humiliation, to somebody who was always and really standing only for the officially not blameable matters and never attacking himself, but being between races and nations from birth, is really terrible to do. But listen that those hitting in my life hit very strong every new day, not just not pay.

If then somebody is paying, they hit even more. When I get then angry, those paying take it back and hit too. This was repeated 3 or 4 times, seems last week again.

When I tell that I am attacked in my own habituation then I do not mean that, what happens everywhere: I have to listen to humiliation and sorrow like: They know I will be thrown out, I am old, or national conflicts like I am German or I am not sufficiently German, etc. So many people get so much to be so much better than naturally and enjoy their lives, but I am kept willingly sick attacked damaged and tortured continuous and it was the same since I can remember. All the reasons and official positions of wrong or right from all sides would sustain me and lead to that I could live good, but a lot of people I don't know and not knowing me humiliate me daily for all kind of guiltiness, enjoy life and blame me that I was not good enough. Now, when some people talk nice and things get better, not only that the control forces me to understand attacks and react like attacked, but the people talk in a way to start with a blaming and then turn it during talking so that I get the fool when reacting. But attacks do still happen. To be afraid of attacks when I was always attacked and to react when I can not stand the pain, seen so wrong, like always. But remember I am controlled and have terrible pains still continuous. There are no word and I had too many. But even when I am controlled, after convincing thousand times even the bad willing deaf and blind about that now the attacks have to stop and I have to have a life too, nobody could change that I was continuous attacked and damaged every day, but every little imperfection I tell, and nobody could not tell also such things, is punished. But there is a side able to forgive to a victim even when fails and did try to help, only they are nit Germany. There are people seeming to wanting to pay, but I was tortured and attacked around them all the time and frightened, like always that this payment will also stop. Continuous I was frightened before a damage happened. But my position is not about these people what they should pay, but about the whole society that it has to suit now for me and I have to get a life giving me that making me consider that I want to live it and it worth even when I had so many pains in the past. Society can not be excusable if not giving that. There were many people tortured and killed on this earth most during world wars, a German state guiltiness. But nothing can excuse that when so many people can live so good, so much pain is done and kept to somebody standing for that what they all call officially the best things and having had only pains throughout his past life. And I know, when I was not behaving perfect or not talking perfect, I don't like when this happens but I do not accept to be blamed or have negative consequences, but rather those controlling my brain. It was really enough now to hit only in one direction and only to hit and inversion of justice and contradiction of humanness. It had and has to suit, if people, responsible around and society are serious enough to represent not only fascism, murderer and death!

26.09:

I drive for professional reasons through Baden – Württemberg and could see during the election period, that no matter which locality you are passing, all big and some little German parties did place advertising panels. But between Bruchsal and Gärtringen, the most present among these panels were the NPD, the little fascist party, related even in name to that party of the worst criminal in the world. After the elections, only this NPD party has left their panels hanging and even replaced some, showing a child or children. Also they and some even worse neofascists appear in Germany like the superior race, showing their people are healthy, good looking and strong. But I was a victim of fascism as a child and could not defend against those being angry that I was blaming fascism and such mentality around me even when fascism has officially lost. I am kept willingly sick and was made sicker even from German dentists and oral surgeons since 25 years and nobody broke that, but many doctors have humiliated me. Still I was a victim of tortures, operations to get more foolish and damages on body for lifetime in Romania during Ceausescu communism, also then not able to defend against pro fascist people doing well around me. But I was always explaining to stand for the rights of all people and having positions nobody wanting to help the poor, which intention I always pointed to honour, or wanting to improve society could find a problem with, even when explaining that they could not do it that way, or at least did fail in some matters when wanting to reach that, that all can live a good life, but forced also in positions to having to speak about it, being a game of other people with my life. It was prevented that I could reach friends and girl friends by spreading bad images and attacking me daily everywhere where I was, continuous, with many matters. But those being on side of fascism today are always in community acting and appearing and have friends and families and nobody spreads bad images about one of them personally here in Germany. But I am happy that in Gärtringen where I live and in Herrenberg close to it, there were no or maybe just very few NPD advertising panels, even when they were doing advertising when I changed to this place, some weeks later in the building where I changed into, where I am attacked day and night with not political issues, but damaging my body and soul.

I was yesterday to eat at “Subway” in Bretten. A group of young people with the typical German appearance / image passed and the girl looked only short to me, showing to be convinced that I want her now. Then the girl confessed that the boy sitting near her was Jewish and she has to pay to him. He told also “I am Jewish” with an accentuation and a face you could see he was not. In the last days many people around me told me, I know many German girls telling to boys, you was a nazi, so fuck me! Pointing to, when I wanted to have a girl here, the way to be against fascism and telling the truth about being a victim of German interests is not the way to get a girl. Several times in discos I could here: he is Jewish, but the Jewish have lost. I can tell I was a clear victim since birth and can not be a looser therefore, but indeed a victim of fascism and discrimination. I tell that the society owns me compensation and that I was between nations and races, being collectively attacked from German communities. I did not say about a national classification. Yesterday in “Subway” a sales personal girl then told suddenly: But Norbert, you will die, following to another confession of some Germans around that they have Sex with each other especially for being both Germans!!! So that I was really standing against fascism and when I was hit every day of my life for that and thousand other reasons, now it is still my fault or what do they want to tell?

I just have to confess that somebody told me, who watched the film about the Nuremberg Trials, that the US Americans would have told the sentence "I could not understand a word" and I trusted to this person, being teacher. I used then that sentence to point that I would be sustaining the US positions. But now I could read that it was a Nazi telling that. That

somebody lied to me does not change the fact that I was a victim of people really standing for fascism and to cheat me that way is another attack, near the 605000 I had to suffer, effectuated against my life.

Even when many people are friendly today in Germany, some do still humiliate and attack, but only compensation could save my life and reasons to equal are more than necessary or sufficient.

The family of my father were in the position to get the white race having not European names and slit eyes and other not European signs among my relatives. But before they could get so big like the Germans, those started the Second World War and lost it. But my grandmother was telling from the start they will loose, listening to British radio and doing a lot of things getting her hated among the German speaking community. Before she was part of the German speaking community in Romania, being the girl with the bad eyes, having slit eyes too. When I was a child of 4 years, they were confessing me to be in the position to get the white race and they all where hoping that I would also ascend to that white race position, but coming out with slit eyes I messed it up. A German speaking woman of 1.80m, giving the means to get better in exterior or abilities, refused to continue to help me, because it was not acceptable with my slit eyes. She decided then that I will be the bad guy all will hate and the enemy of the people there. I was bagging my mother to help me and convincing my sister to love me, after she attacked me being convinced to be the better one with the better eyes. But my father than came brave to attack and to execute that, what that woman ordered. I thought, it was just a bad joke, but my whole family isolated from me and they never stopped to exclude, attack, humiliate and mistreat me. But still they were giving me bed and food and not they were those doing the real damages and pains to me in my life. My sister was punished several times, all friends at school were punished and the many girl friends from childhood and youth were punished when not fighting me or removed from my surrounding with force. I was forced to live alone having no personal contact to anyone and a huge, clear visible effort was brought to reach that. To be attacked by all people around every day, since the age of 4 and until 40 or more, but all really keeping to it and no personal contact at all ever possible to anyone. Can you imagine what a life that is? But still my grandmother was also telling to have had relations with Jewish people during the war and I really was helped repeatedly from Jewish people. And I am not Chinese, even when I could not speak the r and told l for a year in my childhood, I really can not explain that and I am not Turkish even when I have a Turkish name and slit eyes. But I can not be German, for being a victim of fascist German interests from my school time in Romania and a excluded and attacked from the German speaking community. The behaviour of the Germans around me was always in a way, that they treated me different than all of them, no matter what political or other positions those were having. But the way I was treated revealed such a hate against my life and has hurt my body and soul and rights so continuous and severe, much more than necessary for any even when criminal usage for certain purposes or to keep me in slavery position, so that no explanation which could pose me in a position that such a game could not have been against my life can be acceptable.

I have written so many things on so many places. I have been talking and explaining. It should be sufficient now, but I do continue for still being attacked and nothing equalled. For being today serious with standing on a side fighting fascism, fighting discrimination, sustaining human rights and the rights of victims and standing thus and additionally rather on the side of good than that of bad, one has to take care to stop the attacks, damages and humiliations against my life, soul and body and to really take care that those who own me bills and those owning me compensation, that they have to pay. A little part of what one owns me would be

sufficient to get me content and to pay some of the sum of bills and compensation one owns me, is necessary for that I could have an acceptable life. But I am as a real serious victim, still not comparable with any crippled, sick to death or killed, not from today and even less from the past and to no victims of the past. Please understand that I always did sustain the rights of those victims to be compensated and never taken their dignity or rights, never could I have such intentions.

But really I also liked that story of my grandmother that she was eating and sleeping in a house of Jewish people when she was a young lady and from that food she must have changed so much, that all her former friends did not recognize her anymore on the street, but some were humiliating about her slit eyes and curbed nose, even when she had much less slit eyes than me. Also that her rich parents lost all their goods before the communism was started so that she was happy that the other lost their goods too, who did not speak to her anymore, anyway, when communism was started in Romania. And that people from the Jewish community did sustain me repeatedly even when I did not do anything for any of them, is a fact in my life. But I tell to be between nations and races and no political side, standing for the rights of all people, for that all can have a good life, like most worthy in democracies or the European Kingdoms also do. Against fanaticism, against extremism, against fascism and against discrimination. I understood the rights of the people around and respected these, but many did not understand that I have rights too.

28/09/13:

I know that the facts in my life are that way, considering all rules about wrong and right and all interests accepted internationally and officially and I told sufficiently about it, so that even when I can not explain everything to everyone, would take many hours each time, one can understand that it can not be acceptable to inculcate me, but there are sides and people owning me, who should pay. Also the former eastern block socialists had to understand that thus to give me more than the average has would be necessary to equal and that I can claim that a life is "given" to me while it was stolen all my past and all those wanting to help the poor can not find a problem in me when really wanting that. Even more, those from the former western side, owning me for other reasons should understand and do so, that I can have a good life. And the many hidden fascists who have attacked me should be forced to pay, whatever they can pay, for what they have done to me. This stands not at all in the way that compensation is paid as far as still adequate for the both World Wars from the German and related sides who have started it to those victims or those related to the victims of these Wars, while I sustain morally the right of such victims for compensation and I do not compare myself to any victims of the past.

But the still happening manipulations of em and chemical and other nature like continuous stress by social and acoustical impacts etc. do really damage my personality and my intellectual ability, also ability to concentrate. That gives me in every area of my life difficulties and even more the secondary effects of past damages were a hard to estimate serious burden in my life added to that of the damages. I really am so much beyond that I could easily be, but don't understand I would be terrible, I still try to have a life and an acceptable personality.

Indeed brain control (sorry to still talk about it) gives me continuous huge problems in life. And even when I am complaining continuous about to be a attacked and damaged, it never continued that I was attacked and damaged, but the many crimes done to me nobody was ever speaking about, all the time everything possible to see as an imperfection in the name of some interest still not so disqualified like e.g. fascism, but maybe close to, no matter which, I was

severely blamed and also some additional trouble or damaged direct done to me, because trial those do not need. While the only way to find a hope for my life was to search for help outside Germany, while I was doing that there were unbelievable attacks trying to force me to appear like those could find a mistake with me and trying to convince those I was searching help at to find a problem with me. When I complained to be a victim of national and political fights, the whole day long the system in my head and the people around me were hitting political and national fight in my life forcing that my life is only filled up with that. It never stopped that I was seriously discriminated and attacked every day of my life.

Indeed I do want to take care what is my appearance and I do not want an automatism controlling my mind to decide about that. When brain control controlled me to write in a style in German which I do not like, I was also realizing that it was coming automat out of me, so that it was very suspect to be brain control. I changed the sentences to avoid this control to take over in my life. It was my free decision now and I also wanted to take to those always hitting in my life the chance to find more possibilities to do so, even when never there was a real possibility and I never was a bad guy in any way. But it is a fact that every kind of conflict was always tried to be used. Usually I was forced from the control to do something from people really wanting that to happen and then punished severely for having done that even when it was even thus no real reason to punish and I explained not really to have planned that. But the control can force me for short time to do also things strongest against my own interests and will, but very seldom used. It was observed that I changed these sentences without that anyone else than myself have seen both variants and that only for short time, effort for a minute to change. I was repeatedly and severely blamed for that, but not direct, only insinuations: the responsible at work were this PC stands, several people on the street. I repeat that both variants were no crime. That the first variant was just short on my screen sitting alone in the room on the PC. I did change for not liking a style imposed by control and I did change to prevent a possibility to give me trouble, used that everything gives trouble exactly with me. I repeat that this trouble was given always so, that those pushing and wanting a certain situation mostly provable did punish that situation mostly drastically.

I was informed shortly repeatedly since several days, that those doing the bad torture in my brain would be all Jewish. I find this is an attack against the dignity and rights of the Jewish side. I repeat to know that not only fascists do brain control and that many are reachable but never tortured or damaged, but also that I am every day the whole day damaged and attacked from that control and nobody could live that way but also the control heaves only and only Germans, Austrians and German speakers from Romania over me but does this daily in not ignorable way and always did so.

Also I was fighting very much the very intense, professional torture trying to force me to hate or tell something against the British side. I was successful in that and revealing also some matters, then I was still humiliated by the brain control. They attack expressively aggressive and do huge pains to me and then explain in my brain that one of the Royals from the British side would have been sitting on the machines doing that. Also they attack and give pains to me in my brain and when I want to get free from those pains they quickly switch what happens in my own brain suddenly my trial to free me from painful control was shown as an aggressiveness and also suddenly appears in my mind the image of people representing the British side. I know that these images might be used sometimes to convince some people not wanting to understand other way, but I swear to you that the way it is done to me it can not be that but it is a clear humiliation done to the British side and a terrible pain done to me. They do the same games also with other things like some other important sides people or young attractive women, which is plaid in my mind then that I would attack when I do not accept a

the maybe thousands of terrible pains done in my brain, while these pains also fail before those sides and justice and I think a lot of this could possibly appear like being justified, it never could have been and I am fair and do understand positions. I can be forced to appear like a fool, also repeatedly, many times. But I am not quite, reliability to detect things how they are meant proven to me. These games happen since years and do change in appearance and style very much, not everything same clear about the criminality done to me, but mostly and clear the control gives at least a lot of trouble to me. They do happen also these days.

But I was a victim of late fascism but continuous attacks, damages and terrible discrimination giving advantage to Germans and German speakers and those really standing for it have healthy teeth and children today and never pass at doctor Dümmler. Or did this doctor in Bruchsal really wanted to help me? So different my impression. The sales personal in a pharmacy sending me to doctor Dümmler was suddenly appearing with looking much better than naturally, I mean not things I could buy, but having bright, beautiful eyes and flashing somehow out of them to me and looking ostentatively to my eyes, but did not tell anything. I was only writing this a day before here to facebook, 100 people know it, I am sure they never read facebook, but also what I tell alone in my habituation or in the hotel, many people do know immediately. But another dentist told: you still are around in this area? Without any connection or reason why to tell that.

You really know somebody only attacked and completely isolated and continuous damaged and severely blamed without ever to have attacked or wanted or done something officially blameable, like me? My life, is that such a piece of shit only? Those people around me, appearing better than naturally, I can see many Germans in such positions, they OWN ME! But one owns much more than that, to stop all attacks and crimes against me! All people and interests, as they appear direct in my life, want to hate me, even when I can appear before them only while being attacked and controlled from many and invisible and can not defend against. Do you understand the desperation of the discriminated and attacked who could never change that? It is my desperation and I claim from all good people and sides, that they do save my life and do stop but blame those attacking me, so that they have to fear, at least like I did always have to.

The things I write down are real my daily life and it was much worse in the past, some do still help! But so much stronger, those who hit in my life! Why doesn't anybody really help? Attention: now they can tell that "the Jewish" would operate and make brain controllable and torture in extreme way every single day of their life not allowing any chance and making sure body and soul pains of high level and terrible humiliations and relevant reduction of brain abilities daily continuous for more than 35 years to the Germans born in Romania with slit eyes and Turkish name, discriminated therefore and for other reasons in terrible way from all German speakers and Germans and Austrians around him, giving the advantage of the discrimination almost only to Germans and German speakers?

I claim that you find those hitting my life with such positions, punish them for having humiliated the Jewish generally and bring me the dentist who is really not a criminal and takes professional damages done from other dentists away again. Also you free me from that brain control which has not stopped yet and which was hitting in my life all the past 35 years, not allowing me anything else than torture.

I claim to get that from all good people and powers of this earth!

Some people who were showing to me to be extremist fascists were hitting in relevant way in my life, damaging me and promising many of the damages done later by "somebody, it happened", really still have power today and arranged with many powers, God knows how

they reached it but their positions were those I tell you and you can rely on my word, written here, not on every spoken, which is controlled. I claim here my right, before all important sides in this world, that no matter what arrangement those people have, they can not continue to hit in my life. That means I claim that one sustains to stop all attacks, pains and damages kept or done willingly in or to my life and really takes care that from those owning compensation and bills it has to be paid so that I can live a content life. Even when those criminals are not punished as it should, for allowing and helping me to live a fair life that is also not necessary. Nobody had to fear when I could live without to be tortured, but they could never stop even one day until now to make torture out of my life and the effort for that is bigger than if it was about their surviving.

Last but not least; I was shouting not to be German when some young people from the street have told me in the morning over the window I would be German. The explanation is that: Nobody from the Germans was attacked every day of his life from some of the other Germans around but nobody from those was ever standing as friend ore colleague with him. Attacked from control, in his head and when talking never helped but attacked even more from all around.

Ich musste widersprechen als man mich über das Fenster anschrie, dass ich deutsch sei, weil keiner der deutschen 35 Jahre lang von vielen deutschen attackiert aber niemals einen anderen deutschen auf seiner Seite hatte. Kein deutscher wird täglich mit Gehirnlenkung gefoltert und wenn er sich beklagt noch mehr gefoltert, obwohl die Folter schon mehr als unerträglich war. Außerdem wurde ich von richtig überzeugten deutschen Faschisten geschädigt und gequält und mir wurden viele Schäden versprochen die später auch eintrafen, irgendwie. Ich hatte aber was gegen Faschismus, aber nicht von mir aus was gegen deutsch. Bis all das nicht ausgeglichen ist, bis nicht deutsche mich verteidigen und die Verbrechen an meinem Leben stoppen, bis nicht wenigstens einige mit mir sind und die in mich schlagen bekämpft werden, kann ich nicht deutscher sein, auch wenn ich deutscher Staatsbürger bin. Ich bitte sie das zu verstehen! Außerdem ist der deutsche Staat vor mir auch schuldig und hat noch nichts ausgeglichen.

At each essay to help me, some others, mostly those controlling my brain hit so badly in my brain that it gets out even worse torture and I get to be the fool about it or have to be a fool for too big torture in my head. And until now, when I explained then well what happened I was drastically punished like the police imposed me a psychical disease I never had but mistreated me for some weeks, or I was hit on the street from some people and the police did not see the obvious, wanting to call me guilty in the end I had the damage alone.
